

Traffic, Bicycling, Terrain, Directions

This map should help explain our emergency routing procedure. The buses will depart from the marked locations at the shown time. They will proceed along the hard surfaced roads to Denison. They will pick up students along the way at intersections and driveways. The bus that comes by may not be your usual bus or driver. In emergency situations, buses will run on hard surface roads only, and students should come to school and return home on the same bus.

Intown routes will not be affected by alternate bus routes.
