

Kindergarten Math Report Card Standards

- Standard 1: Know the number names.
- Standard 2: Count the number sequence.
- Standard 3: Count to tell the number of objects.
- Standard 4: Compare numbers.
- Standard 5: Understand addition as putting together and adding to.
- Standard 6: Understand subtraction as taking apart and taking from.
- Standard 7: Work with numbers 11-19 to gain foundations for place value.
- Standard 8: Describe and compare measurable attributes.
- Standard 9: Classify objects and count the number of objects in categories.
- Standard 10: Identify and describe shapes.
- Standard 11: Analyze, compare, create and compose shapes.

1st Grade Math Report Card Standards

- Standard 1: Represent and solve problems involving addition and subtraction.
- Standard 2: Understand the relationship between addition and subtraction.
- Standard 3: Add and subtract within 20.
- Standard 4: Work with addition and subtraction equations.
- Standard 5: Extend the counting sequence.
- Standard 6: Understand place value.
- Standard 7: Use place value understanding and properties of operations to add and subtract.
- Standard 8: Measure lengths indirectly and by iterating length units.
- Standard 9: Tell and write time.
- Standard 10: Represent and interpret data.
- Standard 11: Reason with shapes and their attributes.
- Standard 12: Partition shapes into halves and fourths.

2nd Grade Math Report Card Standards

- Standard 1: Solves single/multiple step add/subtract word problems using various methods
- Standard 2: Fluently adds and subtracts two one-digit numbers using mental strategies.
- Standard 3: Writes an equation to show the sum of equal addends.
- Standard 4: Counts, reads, writes, and compares numbers 0 to 1,000.
- Standard 5: Fluently regroups up to four two-digit numbers when adding.
- Standard 6: Fluently regroups two-digit numbers when subtracting.
- Standard 7: Adds and subtracts numbers 0 to 1,000 using a variety of strategies.
- Standard 8: Identifies and draws geometric shapes based on attributes.
- Standard 9: Identifies and shows equal parts of rectangles and circles. (fractions)
- Standard 10: Measures and estimates lengths using standard units.
- Standard 11: Tells and writes time to the nearest 5 minutes.
- Standard 12: Describes the relationship among standard units of time.
- Standard 13: Collects and interprets data to create graphs and answer questions.
- Standard 14: Solves word problems using coins, dollar bills, and appropriate symbols.

3rd Grade Math Report Card Standards

- Standard 1: Solves problems using multiplication facts of 1-10.
- Standard 2: Solves problems using division facts of 0-10.
- Standard 3: Uses a variety of problem solving strategies using multiplication and division.
- Standard 4: Solves problems using properties of multiplication.
- Standard 5: Solves two-step word problems using +,-,x, / operations.
- Standard 6: Round numbers to the nearest 10 and 100.
- Standard 7: Adds and subtracts within 1,000.
- Standard 8: Multiplies one-digit numbers ending in zero, up to 90.
- Standard 9: Recognizes, locates and compares fractions on a number line.
- Standard 10: Solve problems involving intervals of time.
- Standard 11: Estimates and measures volumes and mass using the metric system.
- Standard 12: Generate, represent and interpret data.
- Standard 13: Find the area of shapes using multiplication and division.
- Standard 14: Understands and applies the characteristics of perimeter and area.
- Standard 15: Reason with shapes and their attributes.

4th Grade Math Report Card Standards

- Standard 1: Use the four operations with whole numbers to solve word problems.
- Standard 2: Describe the relationship between factors and multiples of a whole number.
- Standard 3: Generate and analyze patterns.
- Standard 4: Generalize place value understanding for multi-digit whole numbers.
- Standard 5: Perform multi-digit arithmetic.
- Standard 6: Extend understanding of fraction equivalence and ordering.
- Standard 7: Create fractions by using the four operations.
- Standard 8: Understand decimal notation for fractions, and compare decimal fractions.
- Standard 9: Solve problems involving measurement and conversion of measurements.
- Standard 10: Represent and interpret data in a line plot.
- Standard 11: Understand concepts of angles and measure angles.
- Standard 12: Draw and identify lines and angles.
- Standard 13: Classify shapes by properties of their lines and angles.

5th Grade Math Report Card Standards

- Standard 1: Understands the place value system.
- Standard 2: Perform operations with multi-digit whole numbers and decimals to hundredths.
- Standard 3: Writes and interprets numerical expressions.
- Standard 4: Analyze patterns and relationships using given rules.
- Standard 5: Graph points on a coordinate plane to solve simple and real-world math problems.
- Standard 6: Represent and interpret data.
- Standard 7: Use equivalent fractions as a strategy to add and subtract fractions.
- Standard 8: Multiply and divide fractions.
- Standard 9: Convert like measurement units within a given measurement system.
- Standard 10: Classify 2-dimensional figures into categories based on their properties.
- Standard 11: Demonstrate understanding of volume and relate to multiplication and addition.
